A collection of household cooking appliances in Officine Gullo classic style with a retrò touch. Modular metal freestanding household appliances in a variety of colours and finishes, extraction hoods and functional kitchen accessories.

The sublime recycling of air in the kitchen

Developed from a need to harness perfect aspiration for powerful cooking ranges, Officine Gullo extraction hoods are not straightforward aspirating motors. Instead, they are handcrafted self-supporting structures that guarantee the quick and powerful removal of odors and vapors. These hoods boast extremely advanced technology that purifies air efficiently and quietly due to the filtering system. Meticulous research into the space where the system will be operational means that every extraction hood is the perfect solution for the ultimate reuse of air in the kitchen.

OGS208 - 208 cm OG Professional range cooker
Color: Stainless Steel / Finishing: Polished chrome
CPP001 hood

Materials

Officine Gullo extraction hoods are constructed entirely in high-thickness painted steel, while the finishes are in brass. The high-thickness burnished copper version is exclusive.

Installation

Our ventilation specialist consultants will advise your technicians throughout the planning and installation process.

Heights

Officine Gullo hoods can be adjusted to any height. The "velette" cover system conceals the vent all the way up to the ceiling, even when it is very high. This solution is a practical problem that can be discreetly adapted to all kitchens.

Features

The hoods can be equipped with shelving for pans and containers to optimize space as well as a LED lighting system.

Domestic hoods

Officine Gullo domestic hoods were manufactured to comply with the performance of Fiorentina and Restart cooking ranges. Made in painted steel, they are available in 7 different models and they can be combined with cooking machines in terms of dimensions, finishes and colors, to ensure an aesthetically perfect match. They are equipped with labyrinth filters and 3000K LED lights and have an aspiration capacity of up to 1.600 cubic meters per hour.

“Straight Sides” hood

CPD017 / The pyramid shape fits perfectly into contemporary-design kitchens and thanks to the vertical sides it is ideal to be located, for example, between two walls.

“Dome” and “High Dome” hood

CPD004 - CPD024 / The traditional lines of the “dome” shape fit perfectly into classic-design kitchens.

“Bell” and “High Bell” hood

CPD013 - CPD025 / The traditional lines of the “bell” shape fit perfectly into classic-design kitchens.

“Pyramid” and “High Pyramid” hood

CPD001 - CPD020 / The pyramid shape fits perfectly into contemporary-design kitchens.

Professional hoods

Born from the need to have perfect aspiration for powerful OG Professional cooking machines, these hoods are extremely advanced equipment which, thanks to their filtering system, allows to purify the air in an incredibly effective and rapid way, with low noise level and reduced consumption. Handcrafted and available in 7 different models, the professional hoods are available in custom colors and finishes to ensure aesthetically perfect combinations. Internally, the hoods are equipped with 3000K LED lights and have an aspiration capacity of up to 2.250 cubic meters per hour.
